Mediasite Player gives students, employees and online audiences the most engaging and flexible experience to watch lectures and webcasts – unconstrained by viewing device or traditional webcast layouts. Watching a live or archived Mediasite presentation is virtually the same as being in the room with the presenter, but with greater playback control and time-saving conveniences to enhance learning and improve retention. And with playback on all popular mobile devices, including iPads®, iPhones®, iPods®, Android™ and BlackBerry®, your learners have instant access to valuable content anywhere.

**HIGH RESOLUTION IMAGES**
