Student & Visitor Injury & Reporting

- In case a student(s) or visitor(s) has a serious but non-life threatening condition, such as a laceration, fracture, fever or vomiting, advise them to visit a local urgent care facility.

- For life-threatening medical emergencies, call 911.

- Reporting:
  - For incidents involving visitors or students, (i.e: not an NCSU employee) a University Supervisor, or other University staff, should complete the “Student/Visitor Incident Report Form” from the Insurance and Risk Management forms website.
    - Do not use this form for employee incidents.
    - Please follow the instructions provided on the form.
  
  - For incidents involving student workers (i.e., NCSU employee), please review reporting requirements outlined at the Environmental Health and Safety Accident Reporting website.
