Routing Approval: Routing the Reimbursement for Approval

Below is the possible workflow of a Travel Authorization. The workflow is dependent upon the details of the reimbursement and the business processes of a college or department. Within the workflow, **Supervisor**, **Funding**, and **Travel Audit** approvals are required for all travel reimbursement processing.

Initiator →	Traveler → Certification	Dept./College → Funding	College → Research Funding	Supervisor →	Campus → Approval	Travel Audit

Reimbursement Approvers Defined

Traveler Certification: Inserted into the workflow if the traveler did not complete their own reimbursement. The travel must check the box to certify their claimed expenses listed under Section 2: My Out-of-Pocket Expenses.

Dept./College Funding: Funding approval for all projects, except grant funds. Approvers are assigned through Workflow Administration.

College Research Funding: Funding approval for grant projects. Approvers are assigned through Workflow Administration.

Supervisor: Supervisory personnel certify the reimbursement request as necessary and proper and they must require documentation from the traveler to substantiate that the travel was necessary and accomplished. Initially, this assigned supervisor will come from HR information. This can be changed on the reimbursement to accommodate the business needs. The Supervisor should be verified prior to the traveler submitting the reimbursement for approval.

Campus Approval: Option workflow step, dependent upon the business needs of a college or department. Approvers are assigned through Travel Approval Set-up. These approvers were formerly titled Final Approver. If no longer needed, remove from the Travel Approval Set-up page.
